

Club Directors,

Please see important information from OKRVA Officials Chair, Margo Juergens, regarding officiating requirements for junior teams this season. Please pass this information along to your coaches/teams.

USAV will issue new rule books every two years, beginning with last year's rule book. OkRVA has decided that referee/scorekeeping certifications will be valid for two years, coinciding with the two years comprising the rule books.

If a candidate attained the certification last year, that candidate is certified until 10/31/2011. If a candidate attended a clinic last year and did not receive all the ratings necessary to become certified, that candidate can be certified when they receive the necessary ratings. In both of these examples, the candidate does not need to attend a clinic this season.

Each team is required to have two certified referees and two certified scorekeepers (or working towards certification).

Please email me at [margojuergens@att.net](mailto:margojuergens@att.net) so that I can email you a list of candidates that are certified and/or working towards certification.

Margo Juergens  
OkRVA Officials Chair
